MILLERMATIC 211

Multiprocess

Miller

MULTIMATIC 200 MIG—TIG—STICK ALL-IN-ONE WELDER

Features

- The only all-in-one, portable, multiprocess power source from Miller is our most versatile machine to date. Weighing only 29 pounds (13.2 kg) and running on either 120 or 230 V, the Multimatic 200 can go anywhere you need to MIG, TIG or Stick weld.
- Auto-Set™ Elite can be used on multiple materials and multiple processes with the ability to fine-tune your settings. Simple to set up and use!
- Impact-resistant case provides strength and durability, protecting the internal components and welding wire.
- Excellent arc characteristics! Multimatic 200 offers positive arc starts and an extremely stable arc with minimal spatter on both mixed gases and straight CO₂.
- Multi-voltage plug (MVP™) allows you to connect to common 120 or 230 V power receptacles without the use of any tools—choose the plug that fits the receptacle and connect it to the power cord.

BIG BUFF III

LIGHT AND EASY TO CONTROL

Sleek, slim line design and extra light weight let the operator work continuously without fatigue.

FULLY ADJUSTABLE SPEEDS

Electronic speed control with DYNAMAX electronics ensure constant speed under full load for consistent and uniform surface finishing.

PLENTY OF TORQUE

Powerful, high efficiency motor delivers plenty of torque even at lower speeds for buffing and polishing with ease.

30A265 **\$489**

30A267 **\$649**

LINE MATE III

FIRST IN POWER AND ENDURANCE

High efficiency motor and gear drive combined with state of the art electronics give the Line-Mate III plenty of torque, even at lower speeds. With a 25% increase in power, the Line-Mate III is guaranteed to reduce your finishing times and costs.

THE LINE FINISHING SPECIALIST

FIRST IN CONTROL AND COMFORT

Fully integrated DIALSPEED control with DYNAMAX electronics ensure that spindle speeds are fully adjustable and remain constant under load for a consistent and uniform finish. Skilled operators will be able to match any line or finish with minimum effort.

30A268 **\$579**

30A269 **\$799**

SURFOX 103 WELD CLEANING SYSTEM

Industrial, self-contained weld cleaning system with integrated electrolyte tank and automatic pump dispensing. Manual or automatic/variable-speed pump cycling delivers the right amount of electrolyte continuously to the workpiece.

SAFE- Surfox-T cleaning solution is laboratory certified to be safe and poses absolutely no health risk to operators.

FAST - Cleaning and passivation of a typical TIG weld is done at a speed of 3 feet per minute.

PROPYLENE — COMPARE THE DIFFERENCE YOURSELF

Why are Fabricators and Contractors Changing to PROPYLENE?

- SAFER.. Reduced chance of flashbacks, more stable
- 50% Reduction in cost over Acetylene
- 50% Reduction in gas pressure vs Propane... less gas
- 75% less cylinder change outs. (1 - 63lb Propylene vs 4 - 300 cu ft. Acetylene)
- QUALITY CUTS.... Less grinding, better joint fit-up
- HIGHER Vapor Pressure in colder temperatures
- FASTER Cutting Speeds....productivity improvement

**CALL US TODAY TO
SCHEDULE A DEMO**

**Calculate your cost of 300 cu.ft. Acetylene
vs 63 lb PROPYLENE Gas**

Acetylene Cost \$ _____ per cylinder X 4 cylinders.
= **Total Acetylene cost \$ _____.**

PROPYLENE Cost @ _____ per lb. X 63 lb cylinder
= **Total PROPYLENE Cost \$ _____.**

Your Savings = \$ _____

DID YOU KNOW???

South Jersey Welding's PurityPlus® Specialty Gases offer a complete line of specialty gases manufactured and packaged to your specifications. We fill and test at our Quality Assured fill plant and laboratory in Vineland, NJ.

National firms cannot compete with our responsive customer service. With local distributors across the country, our product is easily accessible and readily available. Our customers can be assured that whether they get their spec gas from us here in New Jersey or someone out in California—they're getting the same high quality product.

All gases are manufactured under the audited standards of the Purity Plus Specialty Gas Quality Program. For more information or a full catalog of technical data and our capabilities, visit:

MIGHTY MAX™ M Series

Automatic Changeover Manifolds for High Pressure and Cryogenic Gas Systems

- Compact design, installs anywhere
- Low cost
- Use for up to 4500 PSI inlet pressure
- Can be used with gas systems that use a combination of high pressure and low pressure drivers
- Requires no power
- Simple operation, no adjustments or resets required

Automatic changeover saves valuable time and effort with uninterrupted gas service to keep your application going

Mighty Max M series changeover manifolds are designed with simplicity, functionality, and affordability in mind. They offer many exceptional features that make it ideal for numerous applications. Mighty Max offers high flow capacities, comparable to systems costing four times more for the same performance.

2, 4, & 6 cylinder units shipped complete w/ flexible stainless steel pigtails, and CGA tee or cross connections for the

SHOPMATE 300 DX MIG PACKAGE

#951076
\$3799

Weld MIG, TIG and Stick with one versatile machine. The price of a Shopmate 300 DX is roughly half the cost of buying individual MIG, TIG and Stick welding equipment.

Built-in 10-pin connector for direct hookup of Spoolmatic® 15A or 30A spool guns.

22A wire feeder w/Bernard® Q300 15' 15 ft (4.6 m) 1/0 work cable w/clamp 10 ft (3 m) 1/0 interconnecting cable Ar/CO2 regulator w/flowtube

PIPEWORX WELDING SYSTEM

True Multiprocess Machine Improved productivity and stable arc performance from one multiprocess machine. Includes conventional Stick, TIG, FCAW and MIG welding processes optimized for pipe welding operations. Advanced RMD® and Pro-Pulse technologies reduce number of required weld passes, reduce rejects and allows stainless without backing gas.

One Touch Welding. Set up a new weld process with a touch of a button. Increased quality and productivity with more arc-on time by no need to manually switch polarity or cables between processes and fewer errors caused by incorrect settings.

POWER WAVE® C300 ADVANCED PROCESS WELDER MULTI-PURPOSE EDUCATIONAL READY-PAK® K2774-4

PowerConnect™ Technology (Patent-Pending) - Automatically adjusts to input power from 200-600V, 50 or 60 Hz, single phase or three phase.
Tribrid™ Power Module - Exceptional welding performance with higher power factor and efficiency.
Production Monitoring™ 2 - Track equipment usage, store weld data, and configure fault limits to aid in production analysis and process improvements.
Integrated TIG Torch and Spool Gun Solenoid - Makes for fast changeovers to TIG welding or spool gun operation.
Compact and Durable Case - IP23 rated to withstand harsh environments.

\$6499

Stick, DC TIG, Pulsed DC TIG, MIG, Pulsed MIG, Flux-Cored

PRECISION TIG® 375 TIGWELDER READY-PAK K2624-1

Patented Micro-Start™ II Technology - Delivers extremely stable low amperage starting, welding and cratering for both AC and DC welding.
Widest welding range in its class - 2-420 amps for both AC and DC.
Advanced Control Panel - TIG pulser allows you to control heat input for any weld.
